

# THE TAHOE

## **Flippable / Two-Sided Design**

*Adds to the life of your mattress, giving you a fresh start with a comfortable sleeping surface.*

The extra firm spring unit and luxurious cover make this affordable model one of our most popular. The stretch knit cover with tack n' jump quilt design creates a lofty, comfortable sleeping surface. This mattress measures 9" thick and includes an interior insulator pad which prevents cupping of padding and adds durability and overall support.

The industry standard,  
years of reliability.  
Innersprings sleep up to  
28% cooler than foam.

Steel edge supports offer  
edge to edge comfort  
ensuring the mattress  
retains its shape,  
preventing breakdown.

*Rest Assured.*
